Terminals and labels may vary depending on TV model.
Les bornes et étiquettes peuvent varier selon le modèle de téléviseur.
Los terminales y las etiquetas pueden variar según el modelo de TV.
Terminais e etiquetas podem variar dependendo do modelo de televisor.

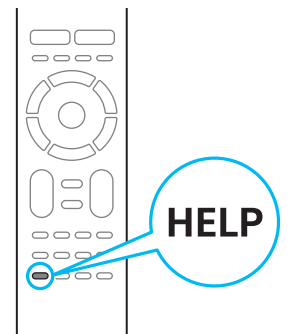

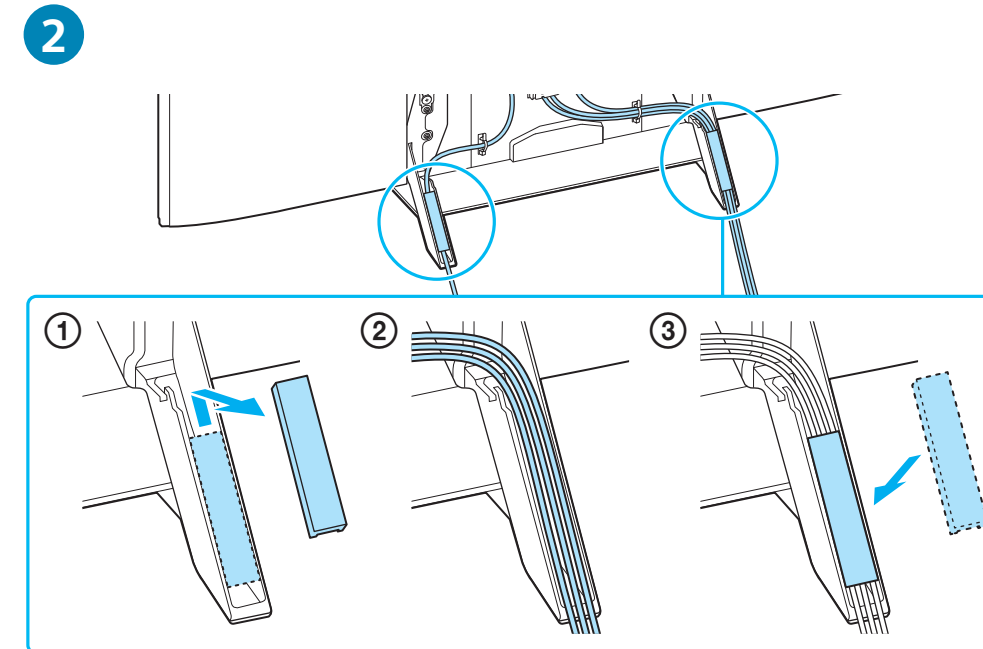

Diagram 2 shows the battery pack being inserted into the device. The battery pack is shown with its positive (+) and negative (-) terminals. The device has a slot for the battery pack. The battery pack is inserted into the slot, and the positive terminal is connected to the positive terminal of the device. The negative terminal is connected to the negative terminal of the device.

Diagram 1 illustrates the preparation of the cable and its connection to the terminal block. The process is shown in two steps:

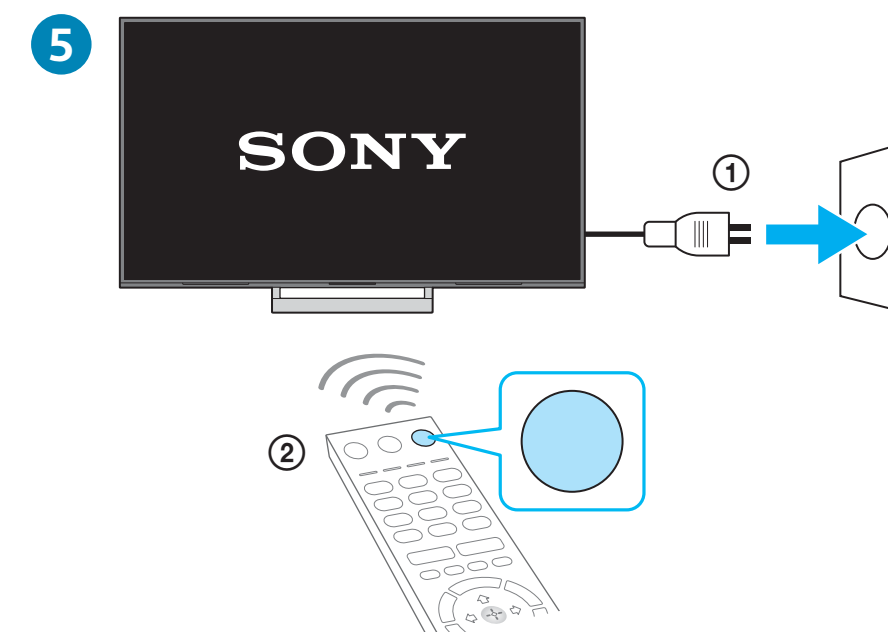

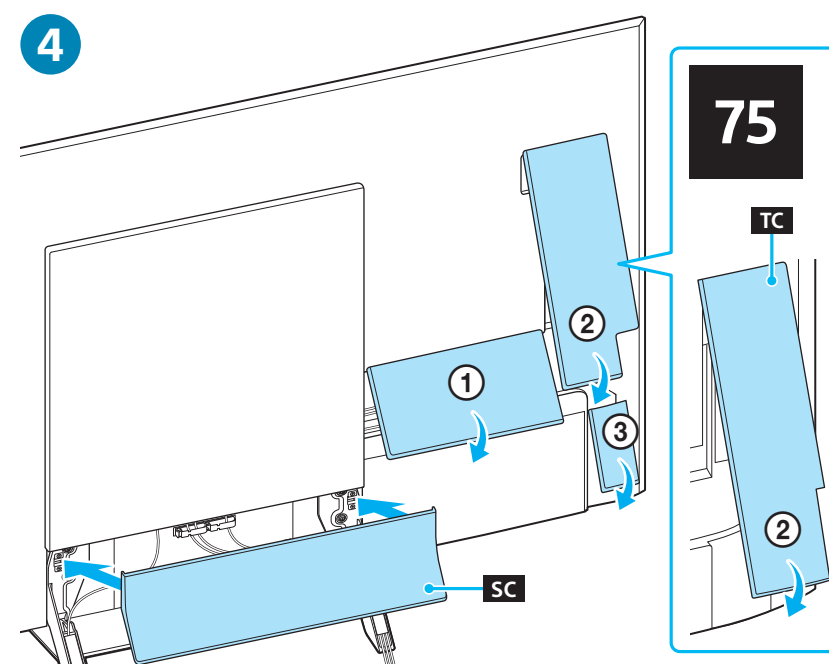

- Step 1:** The cable is stripped, and the conductors are twisted. The diagram shows a hand using a tool to twist the conductors.
- Step 2:** The twisted conductors are inserted into the terminal block. The diagram shows a hand inserting the conductors into the terminal block.

The diagram also includes a table with the following values:

75	65
